DETAILED ACTION

Allowable Subject Matter

Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance: The closest prior art known to the Examiner is listed on the PTO 892 and IDS forms of the previous Office action. The cited prior art fails to disclose or suggest a domed lid mounted on the transfer chamber and adapted to form an airtight seal with the transfer chamber; at least a first process chamber coupled to the transfer chamber via a first of the plurality of facets, wherein the first facet is adapted to provide access to and isolation between the transfer chamber and the first process chamber; and at least a first load lock chamber coupled to the transfer chamber via a second one of the plurality of facets, wherein the second facet provides access to and isolation between the transfer chamber and the first load lock chamber; and employing the vacuum processing system during manufacture of a flat -panel display from the substrate as required by the presently claimed invention. Therefore, the Claims are allowable over the cited prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
